SRIHARIVISHNU JANAKIRAMAN

Front-end Developer & Azure Administrator

Summary

- I am a Front-end Developer with 1 years working experience in HTML,CSS and Bootstrap. I often rely on illustration development because I have a knack for that field. besides that I also have an advantage in building a new design.
- Previously I was a cloud administrator with 10+ months of experience in the area of computer networks, cloud computing, cloud and system administration. I possess a strong background in cloud computing, scripting, networking, vitalization, and testing with experience serving large clients. I have provided support to customers for server migration and installation. I have set up file servers and proxy and maintain active directors. I have provided support on desktop and hardware issues and engaged vendors. The concepts. Proficient in the deployment as well as management of cloud-based infrastructure, especially on Microsoft Azure.
- During my previous employment I managed the technical issues like network based and hardware based issues. So that I can look forward to the technical support and network or cloud support roles.
