SRIHARIVISHNU JANAKIRAMAN

Software Developer

SUMMARY

- I am a becoming a software developer specially I had some hands on experience in HTML,CSS and Bootstrap. For Backend Using Core Java. I often rely on illustration development because I have a knack for that field. besides that I also have an advantage in building a new design.
- Previously I was a cloud administrator with 10+ months of internship experience in the area of computer networks, cloud computing, cloud and system administration. And I managed the technical issues like network based and hardware and software based issues. Now I'm Looking for Software Developer and testing roles.

EDUCATION & CERTIFICATIONS
